Mother Killed By Son's Shot

A Waveland mother of three found shot to death at her home yesterday afternoon after her 16-year old son called the family's minister and told him he thought he had seriously injured his mother.

Mrs. William P. McCutchan, 45, was killed by a .22 caliber bullet which struck her in the back of her head. Death

occurred at 10:30 a.m. for Crash total to Mrs. Hayes

A Bay St. Louis woman was killed instantly about 6:45 a.m. yesterday when her automobile rolled out of control and crashed into an unoccupied service station on US 90 in Long Beach. Death on arrival at Gulfport Memorial Hospital was Mrs. Roger L. Hayes, 57, the former Edith Pia. She was en route to the U.S. Naval Construction Base at Gulfport where she had been employed since 1952.

Long Beach Police Chief Harry Kalters reported she was alone in the car when it went out of control on the rain slick highway, plowed across the neutral ground and skidded into the building. He estimated damage to her car as total and about \$2000 to the building.

Surviving are her widower, son, Martin Noto, of Marrero, La.; two sisters, Miss Mary Pia of New Orleans, and Mrs. James Brans of Bakersfield, Calif.

The funeral was at 10:30 a.m. Wednesday from Fahey-Whitfield Funeral Home with burial in Gardens of Memory Cemetery.

Palbearers were George Heitzmann, James Brans, Mike Schenk, Donald Coffer, Rev. H. L. Donald, Watson Johns, John Scatton and Liddell Cafferty.

I&N Confirms Arrangement for After-Hour Calls

Confirmation was received this week by Mayor John A. Scatton from L. W. Newman, district superintendent of the L and N railroad granting permission for persons wanting train schedules, rates, etc., after the 3:30 p.m. local station closes to place calls to the Union Terminal in Gulfport.

Newman's letter, however, excluded commuter information. He observed that a caretaker is on duty at the station after the track-operator leaves and he has directed the man to answer the phone and refer the calls to Gulfport.

The letter came after City Council protested the elimination of ticket service after 3:30 p.m., and the agreement was reached following a meeting here Aug. 2 between the mayor and railroad officials.

Hospital Revises Emergency Rates

A revision in emergency room charges as a result of the increased cost of drugs was approved by the Hancock General Hospital board of trustees Tuesday night on the recommendation of Administrator Thomas O. Logue.

Drug costs have risen 15 to 25 per cent in the last year, he explained, making necessary the reevaluation. Effective Aug. 15, the routine \$2 charge for use of the emergency room will be eliminated and charges made for services only. The fee for injections will be no less than \$2, depending on the price of the drug.

The board also authorized Logue to set up another nurses' aide school under the same procedure used just before the new hospital opened. It will be in cooperation with the county and state boards of education which share cost of the instructor. Logue explained all aides trained at that time have been used up and more are needed for the future.

Better Go Slow, Sheriff Warns Young Drivers

Chief Deputy Gerald V. Price, Jr., said this morning that youthful drivers "had better slow down" and stop racing especially on Central Ave., and Beach Blvd.

The officer reported police have been issuing tickets right and left and will continue to do so.

He reminded the young people that in addition to endangering their own lives they are endangering those of other drivers and create a nuisance at night with screeching brakes and tires.

Manny, Push At It Again

The Hubbard vs. Gex dispute over approving bills on the slender county general fund flared again at Monday's session of the board of supervisors.

Board President R. G. Hubbard, Jr., said the attorney-general's office had told him by telephone the board could not pay bills without money in the fund and contended it was improper to approve them on that basis.

Lucien M. Gex, attorney for the board, insisted that approving the bills was necessary on legitimate claims. "That doesn't mean you issue the warrants," he said. He suggested Hubbard inquire if it were proper to vote against proper bills.

The squabble arose several times during the day-long session and when the supervisors finally adjourned, shortly before 7 p.m., Charles Lavinghouse settled the problem temporarily by moving to hold claims until this Monday. Hubbard said one answer was to issue funding bonds to pay back the indebtedness. This would require its supply.

Hubbard also questioned the propriety of Beat 4 Supervisor James Necessale disallowing five claims on the grounds of unauthorized signatures. He said the law book and auditor did not endorse that. Necessale's motion finally was

seconded by L. M. Frierson of Beat 2 and approved. When Hubbard said he intended to check further with the attorney-general's office Frierson remarked that board had its attorney to advise it on matters. "If he's not right we ought to fire him."

During approval of claims

Lavinghouse moved, seconded by Necessale, to transfer \$4,000 from Beat 5's road and bridge maintenance fund to that of Beat 4 to cover an overdraft by the supervisor.

The county board of education came in for some more raps during the afternoon with Hubbard questioning whether its budget included provision to repay overdrawn back notes. He also said he thought the board should submit its budget to the supervisors so

Ask Repairs on Rain Damage at Courthouse

A violent thunderstorm hit the Bay area at mid-morning Monday after heavy pre-dawn rains drenched much of the County Courthouse, damaging files, equipment, walls and ceilings.

As a result the county board of supervisors, meeting in damp chambers, called for estimates of leakage repairs. Motion was made by Charles Lavinghouse, seconded by Charles Russ.

One contractor at the session

suggested waterproofing was needed and said the trouble was in the firewall, not the roof. Windows were never corked; he added, viewing the mess with jail crews mopping up the water. Hardest hit was the American Red Cross office where just about everything was wet.

Otherwise, Coast Electric Power Assn. and Mississippi Power Co. reported only a nor-

mal flow of trouble calls from the storm.

To O. Logue, administrator of Hancock General Hospital, reported lightning struck the television antenna, came into the dining room, knocking out a television set and an air conditioning unit. He said persons in the room observed a ball of fire. Another flash knocked out the fuse box.

A waterspout, not as large as the one here last month, was seen in the Bay.

Brother Leon of the St. Stanislaus Weather Station recorded 25.4 inches of rain between 4 a.m. Monday and 7 a.m. Tuesday. Rocky Hill Tower measured 2.73 inches Monday alone and the tower keeper noted that he had already recorded over four inches this month which is above normal.

Business establishments will be requested to give their employees time Saturday to go to the polls. One suggestion was advanced that names of non-voters might be published next week to encourage turnout at the polls.

A spokesman noted the endorsement has the sanction of the Supreme Council.

At County School Board Meet

Gulfview Job, New Bus Bids Ordered

Contract on an addition to the overcrowded Gulfview School at Lakeshore which has been under consideration for the last two years was awarded Monday afternoon by the county board of education, and it is expected to be ready to use in the late fall. Low bidder on the job which

calls for a 30 by 24 foot classroom to the east of the existing building and fronting on the new Beat 5 state aid road was James Travica who offered a price of \$7,890, included in the plan is an office and storeroom which may eventually be used as a faculty lounge.

Decisions on bids occupied the bulk of the session with contracts for various supplies during the year being awarded.

At the onset the board called for new bids on two 66-passenger bus chassis based on previous specifications and set the opening date for 9 a.m. Saturday, Aug. 19.

Beat 2 Trustee Alton D. Keller who moved to accept the \$3,695 bid of Chevrolet at the July 17 meeting offered the motion Monday to call for new bids citing

confusion over bid prices and Chevrolet's modification of its bid. E. P. Orte of Beat 5 made the second and acceptance was unanimous.

Arthur Tipping of Gulf Chevrolet wrote the board that equipment changes revised his price to \$3,782.90 and he might not be able to deliver 1961 models but could supply 1962 models subject to the changes in price.

Question earlier had arisen over whether Chevrolet's bid was low when the Echo learned that a local Harvester Co. had presented a price of \$8,032.85 per unit. Superintendent K. G. McCarty claimed yesterday the International bid did not meet requirements in that it called for a B-173 motor with a 256 in wheelbase which requires a heavier

motor. The usual controversy over who gets the system's milk business was resolved this time on the motion of Beat 3 Trustee Luis Necessale to rotate the three county schools among three dealers, Newman Cobb is to furnish North Central this year, Borden's will serve Gulfview with Country Girl at Logtown. The second came from Orte and vote was unanimous.

Keller commented this seemed the only fair way to handle the milk, citing problems in the past. Attorney Walter J. Phillips said the rotating three-year contracts could hold so long as the milk marketing prices of the state remain constitutional.

Sealest Dairies had the contract last year. Three bids also were accepted

for the coming year on tires and tubes—Seuzeneau Flying Service and Cue Oil both of which handle Firestone products and Arceneaux, Goodyear dealer.

A careful tabulation of prices showed Seuzeneau ran 50 cents cheaper per tire than Cue Oil on the same regular tire and Keller moved to accept that bid. Orte observed the three firms were so close in price it might be well to take all three bids and Phillips cited inventory problems in the past. Keller withdrew his motion after Orte suggested the price difference was so small when tying up a bus was involved. Keller said the supply problem could be solved by keeping a stock on hand at the garage and Phillips noted the all-nylon tire specifications contained in both Cue and Arceneaux bids.

The board declared the water situation to be an emergency and authorized the superintendent to dispose of formal bids and get prices for installing a booster and settling tank immediately. This was done so work can be completed before school opens.

Other bids on the Gulfview addition were from Roger Heitzmann \$8,815 and August Rauke offered \$8,633.05. Motion to take Travica's price was by Orte, seconded by Keller.

Earlier this year the board rejected a \$1,969 bid to remodel the interior of the building, dividing one large classroom into two and making other alterations. The late Gordon Courtege, then Beat 5 member, said this proposal was not acceptable to patrons. Two summers ago the board considered a more elaborate plan

The most surprising thing today is the enthusiasm and rapidity with which the youngsters respond to the grown-ups appreciative attitude instead of a critical approach to their doings. If given a chance they expose their talents as if by magic.

This has been brought to our attention since April when the Clermont School was taken over as a Youth Center—talent has popped out all over the place. Take for instance the teenage figures at either side of the stage—on one side a life-sized youth gives his all in a song over the mike as a pony-tailed baby soxer rests in the rhythmic music on the other—these were painted by talented Betty Smith who sprinkled a little glitter here and there to accentuate their movements.

Dances and Our Band

Surely we could have twisted the neck of each of these youngsters over the years as he practiced, without appreciating the fact he wasn't in mischief while so occupied which only goes to show we are most down on the things we are least up on—now we are absolutely astounded at the syncopated rhythm these youngsters turn out at the grown-up dances their band plays for on Friday nights from 8 until 12—They really put their hearts and souls into it—get over to the Youth Center and see for yourself.

Thor's August Usher, Jr., who makes the piano get up and go; there's Bert Courteau of Lakeshore and Douglas Moran whose guitars do their bit-bit way-out; and without that smooth sax of George Hill (who really loves classical) the band would lack something—and we all know and love that something that steel guitar of Richard Proctor lends to any group he happens to play with. Then there Betty Smith's father, whose bass fiddle sobs and throbs and really gets going—it's GOOD brother good you don't need a NAME band to have a really good time.

Arts and Crafts

Classes for the younger set 8 to 11 years have been inaugurated for Wednesdays 9 to 11. Bring or send them—They learn so quickly you will be amazed at their progress.

Chaperones

The roster of adults available is rapidly depleted as four are needed each week. Those who so generously give of their encouragement and time are Mrs. B. Bankston, Mrs. Frank Peterson, Mrs. Lloyd Garcia, Mrs. Shirley Hankins and others—but suppose YOU volunteer to the president Mrs. Joyce Garcia—HO 7-4217, but you must be able to appreciate what the movement is doing for the youngsters as this is a labor of love not suspicion.

Quit Griping

See what you can do for the youth movement wherever you happen to be—by giving and doing yourself you will soon discover that our teenagers are swell people.

If your teenage daughter starts calling you mother and father instead of Daddy and Mommy because she thinks it sound more grown-up—don't worry. When she gets confused and tears start flowing she will be your little girl again.

Home Agent Notes

By MARCIA HUGHES

As we enjoy fresh red-ripe tomatoes of summer, it's hard to believe that tomatoes were once grown strictly as an ornament in the garden.

Today they rate second only to potatoes in total vegetable sales. Each person in the United States eats about 57 pounds of fresh tomatoes and tomato products a year.

The Italians broke the superstition that tomatoes are not good to eat back in the 1500's. Gradually other European countries followed suit and by 1800 everyone was eating and enjoying tomatoes—except Americans.

It took the popular Creole foods of New Orleans to break down their resistance to tomatoes during the 1800's.

Enjoy your fresh tomatoes now. Can or freeze plenty of them for later. Remember they are an excellent source of vitamins C and A. One medium size tomato provides you with half the daily requirement of Vitamin C.

No Word Here On Military Power Step-Up

The local unit of Mississippi
National Guard and Selective Ser-
vice Board have received no
direct orders in connection with
President Kennedy's recent
speech in which he outlined cer-
tain military manpower require-
ments.

The Naval Reserve Training
Center at Gulfport, however, re-
ports the commandant of the 6th
Naval District has directed a
step-up in recruiting in two
fields: the enlistment of recruits
for the Selected Reserve and en-
listment of qualified persons for
two years immediate active duty.
Persons in the latter category can
be ordered to Great Lakes, Ill.,
for basic training with 24 hours
after enlisting.

Current Navy policy provides
that those among its standby Re-
serve forces with no wartime
service will be recalled first,
those with Korean service only
will be second, World War II
duty only, third, and both Korean
and World War II duty, last.
This would appear to rule out any
mass recalls from Selected Re-

Fair Escapes, **City Tax Rolls**
Fair Open Aug. 21
Events Success

Local profits from St. Louis Fair, last Saturday and Sunday will not be announced until the Victory Dinner is held soon at the Parish Hall, St. Louis. It is the hope of the Holy Name Society that the project will be successful.

Winners of major prizes were: Mr. Muller's Realty, William Wood Drive, New Orleans; an air conditioning unit; Mr. Barker, four tires from Mr. Service and Toomey's Shell.

Mrs. Mrs. Ervin Necaise, 130 St. Bay St. Louis, a doll in 25 \$1 bills and Mrs. Mrs. Marcel, a chair donated by Henry Deville, Gerald Price, was high bidder on a sheep.

Unfortunately the society has not yet named the name of the successful bidder on a goat, nor any idea of the goat's whereabouts. He was sold during the bidding and is now headed for the wide open

and the greater security rating of the bonds would probably be that future bonds could be sold at more favorable interest rates.

According to City Commissioner J. Cyril Glover the bond has been sought by the city for several years.

School Board...

(Cont. from Page 1.)
not necessary.

John Lachner, North Central High School, appeared again to seek access to transportation bills and called on the board to take steps to impeach the superintendent grounds he is not carrying out his duties. Lachner also called on Phillips to check if the operations of the board are being carried on legally.

The attorney endeavored to explain to Lachner that he could see the transportation books at reasonable times but noted the office had just had access to them and use of the books now necessary to carry on business properly. Lachner said he planned to report the superintendent's attitude to state authorities to which McCarty suggested he "be careful with the accusations you make."

All properly signed bills were approved and the board adjourned Aug. 19.

Hospital Rates...

(Cont. from Page 1.)
William Henley got the egg contract with Rite-Step Poultry Farm and Holiday Nursery also bidding seafood went to Lachner Seafood; bread to Smith Bakery over Colonial; vegetables to H. T. Cotton Co.; Jitney Jungle, Coast Foods, Southern Frosted Foods and Merchants Co.; coffee to Folz Coffee and Tea Co.; x-ray supplies to Hospital Supply over Picker X-Ray Corp.; Laundry to Globe for one year; pest control to A and M over Field and Orkin; oxygen to Capital Welding Supply Co. over National Cylinder Gas and Magna Welding; janitorial supplies distributed according to prices to DeWitt Supply, Gulfport Paper, Rudolph Ramelli and Zep Manufacturing.

An appointment to fill the vacancy of an anesthesiologist was discussed. Considerable difficulty has been encountered with one as the anesthesiologist from Gulfport often is so busy there he is unable to come here for operations when needed. Six surgeries are scheduled this Saturday as that is his only available day and frequently operations have had to be delayed until nighttime which works a hardship on the nursing staff.

Attention also was given to the pending vacancy of the dietician and to the medical staff accreditation requirements.

The administrator was directed to get prices on a suitable plaque to bear names of the original board of trustees and a \$10 contribution was voted to the lay technicians convention.

A letter from the attorney-general's office regarding appointment of a board attorney advised that a five-year appointment was not authorized but the board should proceed on a one year basis like the board of supervisors. A proposal to appoint Dr. J. Favre, Jr., as attorney for the board for five years had brought about a lengthy discussion.

Other action Logue reported on negotiations to get a 200-bed defense hospital, and he has checked on local use of the school building to transport it to Kiln High School if necessary. Local observance of Hospital Week had received national recognition by nomination to all hospitals across the country, and Mayor John Scalfi and the city council were in full agreement.

City Tax Rolls Open Aug. 21 For Inspection

City land tax rolls will be open for inspection Aug. 21-31 and City Council will recess from day to day for protest hearings. Beginning Aug. 24, the delinquent rolls will be published and late taxpayers will be subjected to publication costs in addition to late interest.

Members of the commission council spent much of their day long session Monday setting the dates and planning the agenda for the rest of the month which will include preparing the budget for next year.

Negotiations are still underway with St. Stanislaus College for the acquisition of property on Old Spanish Trail near Bookter St. for a Negro playground.

Work is to begin this week on the construction of a sidewalk on the west side of Dunbar Ave., going to North Bay Elementary School. The sidewalk, Mayor John A. Scalfi observed, will afford safety for school children who formerly had to walk along the edge of the road.

FORMING THE METAL - Working in clean, brightly lighted surroundings, employees of the enameling and porcelainizing division of Industrial Electric, Inc., of New Orleans, begin the process of manufacturing the enameled panels and signs by forming the underlying metal of which they are made. The division was established in 1946 and will move here if a BAWI bond issue financing it passes in the Aug. 12. The dealer organization representing the division serves a 20-state territory.

FINISHING THE PRODUCT - Last step in the manufacture of the gaily painted panels and signs is the application of very hard coats of porcelain enamel done on an assembly spray line. The panels are shown hanging in the background after they are painted in a wide array of bright colors, ranging from bright red to bright green, including white. They are used primarily in commercial buildings, multi-story buildings, etc.

Vote For Bond Issue

TO THE VOTERS OF BAY ST. LOUIS:

Although we cannot vote in this election, we are hoping that the vote for the Bond Issue will be unanimous. Not only will the people of Bay St. Louis enjoy its benefits, but so will the people of Waveland, Clermont Harbor, Lakeshore and the entire county.

Wiggins Approves Factory Expansion

The Brown-Miller Division of Beatrice Foods, Inc., has announced plans to build a new pickle factory in Wiggins on property adjacent to the company's present plant. The new factory will replace the one now in operation, which will provide for expanded production and employment, according to company officials. A \$450,000 BAWI bond issue was approved by Wiggins voters to finance the new plant.

Mathiston Vote: 143-0

The town of Mathiston, in the Webster County line (population 584), has voted 143-0 in favor of a \$100,000 BAWI bond issue for the W. W. Sly Company plant, where industrial filters will be made. This came close to being a 100 per cent turn-out for the town's 157 registered voters. The plant will employ 20.

FOREST APPROVES NEW \$60,000 BAWI BOND ISSUE

Citizens of Forest have overwhelmingly approved a \$60,000 BAWI bond issue to modernize the Cudahy Packing Company building there. The vote was 529 to 19. Cudahy employs about 125 persons in processing of poultry.

UNION COUNTY OK'S BAWI BOND ISSUE

Voters of the third and fourth supervisors districts of Union county have approved a \$425,000 Balance Agriculture With Industry (BAWI) industrial bond issue to finance construction of a plant for Master-Bilt Refrigeration Manufacturing Company of St. Louis. The plant will produce commercial refrigeration equipment. The unofficial vote total was 1,897 for and 77 opposed.

NOR HERE

I hope the waiting is over
heavy and in favor of the
bond issue.

EUGENE DILLMAN

I am 100% for the Bond
Issue because the entire
county will benefit from it.

TOM BRESSLER

Let's provide more job
opportunities for our people.
I'm for the bond issue.

DARREN CARVER

This is a golden opportunity
knocking at our door
and we must vote in its favor.

ED ENDMAN

Be sure to vote for the
bond issue. Jerome's is always
for progress.

HAROLD CARVER

Let's back this bond
issue 100%. Bay St. Louis
really needs it.

MRS. JOSEPH KERN

This would be one of the
best things ever to happen to
Bay St. Louis.

HENRY CHAPMAN

I cannot understand why
anyone would vote against
the bond issue.

J. E. CASANOVA

We have waited a long
time for this chance. Let's
not lose it now. Vote
"YES" Saturday August 12.
ROGER HEITZMANN

I think the bond issue
will be good for business
and for everyone in general.

TONY BENIGNO

I believe the plant would
be good for Bay St. Louis
and Bay St. Louis would be
good for the plant.

T. T. ROBIN

I would like to see all
qualified voters go to the
polls on August 12 and vote
for the bond issue.

ALVIN KINGSTON

I heartily endorse the
proposed bond issue for the
construction of the new
enamel plant.

DAN RUSSELL

Let's get 100% vote in
favor of the Bond issue. In
industry is badly needed in
Bay St. Louis.

MRS. EMMETT DEMORAN

I am in favor of the bond
issue 100% and in my estimation
it could not do anything but help the city.

GEORGE STEVENSON

This bond issue is an
opportunity for Bay St. Louis,
and if it already was proposed
I would be in favor of it.

HORACE KEROUAC

The McDonald Realty
Co. and W. A. McDonald
and Sons are 100% for the
bond issue and new industry
for Bay St. Louis.

JOHN MCDONALD

I think the bringing of
Proctor's Industrial Enamel
Plant to Bay St. Louis will be an
important factor in the area.

R. SCHAFFERT

I have always strongly
advocated an Industrial
Program for Bay St. Louis,
and feel that this is the
golden opportunity.

GEORGE HEITZMANN

What is good for Bay St.
Louis is good for its people
and we heartily endorse
this program as good for
Bay St. Louis.

P. J. TREUTEL

I am for the bond issue
100% because I feel it will
give the local economy the
needed boost without any
increase in taxes.

JOE LOLIACARO

The bond issue will
benefit the economy of the
community and provide
many jobs for working people
at home.

VINCENT PIAZZA

The opportunity is here,
and if you love Bay St. Louis
and your community as I do
vote "YES" for the bond
issue.

DR. B. L. RAMSEY

I am cashier of the Mer-
chants Bank, the best of
officers, directors, and
employees fully back the
passing of the bond issue.

JOE BURROW

We owe it to our chil-
dren to see that the com-
munity grows. Let's our day
as parents to vote for the
bond issue.

GEORGE DI STEFANO

The progressive busi-
ness climate and local re-
lations to business people
in this city is to be noted by
all.

MRS. GORDON GLENN

This is an opportunity for
progress in Bay St. Louis
and we can and will take
advantage of it.

P. E. PORTER

I think there is a cer-
tain need and desire for
this industry in Bay St.
Louis and everyone should
vote "YES" August 12.

DR. WESLEY MCFARLAND

I am very much in favor
of the Bond issue. I believe
the community needs some
industry.

MRS. GERTRUDE PERRY
(Merchants Ins. Agency)

This bond issue is very
important to the future of
Bay St. Louis. It could be
the beginning of future indus-
try for our city.

ALDEN MAUFFRAY

I am wholeheartedly be-
hind the Bond issue. It will
provide many jobs not only
at the present time but also
for our children.

CHARLES THOMAS

Vote for the bond issue
to improve the standard of
living in our community.

MRS. MARGARET SHADDE
(Hancock Ins. Agency)

For over 41 years I have
seen industry gradually
fade out of our community.
This is the first opportunity
to really welcome industry
back.

E. J. ARCEAUX

These nine months I've
been in business here, I've
heard so many times: "What
we need are some indus-
try here." Here's our
chance.

RUSSELL MAURICH

This Bond issue would
provide Bay St. Louis with
something it has needed for
the past fifty years - a pay-
roll.

LLOYD LADNER

By voting for the Bond
Issue, August 12th, the peo-
ple will make the greatest
progressive move that has
ever been begun in the his-
tory of Bay St. Louis.

LUCIEN GEE

As a business man and
real estate broker in Bay St.
Louis, I have seen the need
for industrialization to
create jobs.

WILLIAM WARING

I have always been an
advocate of industrial develop-
ment in Bay St. Louis. I have
seen the need for industrializa-
tion to create jobs.

JOE BENVENUTI

Express, Traps, Realty Seek State Ball Title

Gulf Coast Express, Traps and Southern Realty, representing Bay St. Louis in the Mississippi State Invitational Men's Slow-Pitch Softball Tournament in Biloxi this week, all remained in the running for the championship after playing their first two games, although Gulf Coast Express is the only undefeated team of the three in the double elimination affair.

Gulf Coast defeated McDonald Cleaners of Pass Christian in their first game Tuesday night.

Men's Softball Play Postponed By State Tourney

Games in the Bay Softball League were postponed Wednesday night for the third straight time, although this time it was not because of the weather. Three of the local clubs are playing this week in the Mississippi State Invitational Men's Softball Tournament.

The two games have been tentatively rescheduled for Friday night, but if the local clubs are still playing in the tournament, they will be played Monday night.

Kiln Youth Center is scheduled to play the Knights of Columbus in one of the two games to determine fourth place and a playoff position while Southern Realty and the Old Stars will play the other game, the final regular season game left on the schedule.

MRS. ANDREW JACKSON LOTT, III

Miss Semple, Mr. Lott Are Wed at Lake Charles

Tall vases of white gladioli, mums and greenery adorned the altar of Immaculate Conception Church at Lake Charles, La., Saturday morning for the wedding of Miss Mary Noelle Semple, daughter of Mr. and Mrs. Henry Clay Semple of Lake Charles, to Andrew Jackson Lott, III, son of Mr. and Mrs. Jack Lott of Kiln.

The double ring ceremony was performed by Father Mallet of Lake Charles.

Given in marriage by her father, the bride wore a creation of white peau de soie and Chantilly lace. Fashioned along empire lines, the lace bodice, featuring long sleeves and a scalloped decolletage re-embroidered in seed pearls and iridescent, met the gently flared skirt with folds of peau de soie at the midriff creating a bow in back. The skirt fell into a chapel length train. A corset of seed pearls held her veil of silk illusion and she carried a cascade bouquet of lilies of the valley centered with a white orchid.

Accompanying the bride were Mrs. Charles Semple of New Orleans, who served as matron of honor, Miss Helen House of Orange, Texas, and Mrs. Robert E. Barres of Lake Charles. Lori Wilson, niece of the groom, was flower girl.

Their short frocks were fashioned of emerald peau de soie and featured scoop necklines, fitted bodices and softly pleated belle skirts. Matching ribbons of green velvet circled their waists and they wore circular bouquets of matching silk illusion. Their bouquets were cascades of yellow tint carnations and shamrock ivy.

Latia Hoffmann of Orlando, Fla., was Mr. Lott's best man. Groomsmen were Dr. H. Charles Semple of New Orleans, brother of the bride, and Robert E. Barres of Lake Charles.

Isaac Comeaux of Sulphur, La., an uncle of the bride, Jack Norton, Wilson Morris, Jr., nephew of the groom, and Robert J. Boudreau, all of Lake Charles, were ushers. Ricky Colburn, cousin of the bride, was ring bearer.

A reception followed the ceremony at the Terrace Room of the Pioneer Club. A traditional cake centered the bride's table surrounded by arrangements of white blossoms and flanked by candleabras holding white tapers.

The couple was assisted in receiving by Messengers Lott and Semple, and by Mrs. Isaac Co-

messe, grandmother of the bride, Mrs. Wilma J. Boudreau, Mrs. Russell E. Smith, Mrs. W. F. Wilson, Jr., sister of the groom, Mrs. R. L. Gates, Mrs. L. Comeaux, Jr., Mrs. Frank Ellis, sister of the groom, and Mrs. R. L. Semple.

The bride's mother wore a gown of turquoise pure silk chiffon with matching accessories, while the mother of the groom was adorned in pink linen with pink accessories in a matching shade. Both wore corsages of lilies of the valley and stephanotis.

Misses Andre Comeaux, Nancy Gates, Alison Comeaux, cousins of the bride, and Miss Patricia Ann Morris, niece of the groom, served at the register.

The couple planned a wedding trip to the Gulf Coast and for traveling the bride chose a three-piece cotton ensemble in a shade of magenta complimented by a matching magenta hat, black kid gloves, shoes and bag. She wore a white orchid corsage.

Out of town guests for the occasion were Mr. and Mrs. Ed Newman, Metairie; Mr. and Mrs. R. E. Smith, Harahan; Mr. and Mrs. E. A. Lott, Mr. and Mrs. Buford Dunnmon, Dr. and Mrs. Richard Calhoun, Mrs. Althea and Miss Lynn Barry, New Orleans; Mr. and Mrs. Clyde Drummond, Calif.; Norton Haas, Bay St. Louis; Omar Haas, Kiln; Mr. and Mrs. A. S. Laue, Dewey LeBlanc, Houma; Mrs. R. L. Gates, Jr., Mr. and Mrs. R. L. Gates, Jr., Misses Nancy and Janet Gates, Mr. and Mrs. R. L. Semple, Jr., Mr. and Mrs. Tommy Semple, and Mr. and Mrs. Willie Semple, Alexandria.

Stennis Wins Gulf Shrimp Research Aid

Shrimp resources of the Gulf of Mexico will come in for a wisely managed research program this year, thanks to a Senate amendment that provided \$175,000 for the project.

A Senate-House Conference on Interior Department appropriations for the 1962 fiscal year adopted a proposal Sen. John Stennis offered to boost the shrimp industry in Gulf waters.

The amendment was offered by Stennis last May as an additional item to the President's recommended budget, after a delegation from the Gulf States Marine Fisheries Commission, including several prominent Mississippians, appealed to him for help.

Stennis said the money would be used to hire additional personnel and to charter special vessels to conduct the shrimp research program with an eye toward more management of the industry.

The research program would be limited to Mississippi waters, but would affect all shrimp fishing areas from the Florida Keys to Texas.

Machine Shop Course Offered At Pearl River

Changes in the Social Security law signed by President Kennedy recently directly affect many persons aged 62 or older, giving them social security benefits for the first time or increasing benefits for the first time or for increasing benefits already payable to them, according to Jerome Drane, manager of the Gulfport Social Security Office.

Under the new law men can begin collecting benefits at age 62 if they choose, just as women have been able to do since 1956. But workers who decided to take benefits before they are 65 will get less per month than they would if they waited until age 65.

The sooner a worker takes his benefits after age 62, the greater the reduction in his benefits will be. That is, a worker who starts receiving his benefit at 62 will receive 80 per cent of the amount he would have received at 65.

Another change lowers the amount of work credit required for old-age and survivors benefits. The new law makes payments possible for a person who has work credit for one calendar quarter for each year after 1950 and up to the year he reaches 65 or 62 for women.

This means that a man who reaches 65 or a woman who reaches 62 before 1958 will need credit for only a year and a half to work under social security to

**RC Volunteers

Presented by the Veterans Administration hospitals at Gulfport and Biloxi, the certificate recognizes the services rendered in the hospitals, including parties there and entertainment here by the following groups: Women's Society of Christian Service of Main Street Methodist Church, First Baptist Church, First Women's Missionary Society, St. Joseph Academy Parents Club, Order of the Eastern Star, Bay-Waveland Yacht Club, Women of Christ Episcopal Church, American Legion Auxiliary, Woodmen of the World Circle, St. Margaret's Daughters and Bay-Waveland Garden Club.

A total of 20,000 volunteer hours was tallied.

HA Operating Loan Commitment is Made

Mississippi has been allocated \$8,300,000 to make operating loans this fiscal year through the Farmers Home Administration, Max H. Stone, supervisor for the FHA, in Jackson.

The loans are available to those applicants who cannot obtain credit elsewhere and cannot afford to wait for a loan.

Applications may be made to the FHA office in Jackson or to the county supervisor for the FHA.

The loans are available to those applicants who cannot obtain credit elsewhere and cannot afford to wait for a loan.

Applications should be made with some in the Agricultural Center on Natchez Avenue.

NEW & EXPANDING INDUSTRY BENEFITS EVERYONE

Yes, new and expanding industries do benefit everyone -- by creating more jobs, by increasing the demand for Mississippi's products, by bringing more business to local stores.

More and more industries are looking to Southeast Mississippi as a land of opportunity. New plants are springing up every year -- adding strength to the economy of this area and the state. One of this area's best recommendations for NEW industry is the success of EXISTING industry.

Through the years it has been a pleasure for the Mississippi Power Company to coordinate its efforts with state agencies, Chambers of Commerce, and other business concerns, whose objective is the greater industrial development of our state.

Groogling With Jimmy Ruggedness Pays Off

BY GIAMETTA

Men were kept indoors most of the week and things were slow, probably due to all the bad weather and rain. Those who braved the pouring rain and rough water were rightfully rewarded.

Lawrence Jacobi and Albert Mercier took a jaunt up the river the other day and came back with a catch to be proud of—18 large species in total, one and a half to three pounds. Albert says he hooked a red that broke a 20 pound test line; could that be within the perch must have really been biting Saturday, August 4. A fisherman filled a bushel basket with them early Saturday a.m. and also hauled in three fair size green trout—two to three and a half pounds each, according to reports.

Another Saturday morning fishing duo were Henry Neyrey and wife. They tried some live bait on the red fish and hooked 10 bulls weighing up to five pounds.

Crabs Are Biting

Hard crabs are beginning to bite. The high tides and rough water this week must be bringing them in. Mr. and Mrs. R. A. Steinmayer tried their skill with the crab net and pulled up a bushel in about two hours. Gulfport crabbers were Mrs. Julie Holmes of Gulfport and Eddie Jones of Jackson. They took little Johnny Shattuck last week off the pier shell pile and netted four dozen using chunks of beef for bait. Shallowers and dead bait lured the trout at Grassy Point near where they are hooked by Jack Kramer and Camille Schaefer. The pair are out this week and came back with a sizeable catch.

Ladies' Day

Looked like ladies' day at Half Moon last week when Mrs. Roy and Mrs. J. C. Baxter of Dallas took the gentlemen (Misters and Mrs.) on a very successful fishing trip. The group cruised the east side of Half Moon where they ran into a school of cigar trout. Total catch was 40—the fish were gobbling that live bait.

BIG ONES — David and Brad Kornion and grandfather, C. J. Anos, are shown with two drums, one weighing 40 pounds, the other 12, which they caught on the railroad bridge recently.

Young Bill Miller and Ann Bertran of New Orleans got a fishing lesson from grandpa Judge Rene Viosca early Tuesday. The group found the mouth of Bayou La Croix most prosperous, where they hauled some nice flounders, several trout and a few croakers. Bill learned his lesson well for he claimed the largest catch of the excursion, a big four and a half pound sheepshead.

Grid Gear Is His Answer

We finally found an explanation for a sight which has been puzzling us—that of a stately gentleman strolling along the seawall clad in a football helmet. Seems the gentleman loves his daily walks but has been subjected to dizzy spells and once fell injuring his head.

Determined not to forsake his walks, he purchased helmet and was assured of no head injuries should he fall again and we certainly hope he won't and will continue to enjoy the delightful salt breezes and the beauty of the sunsets and moon on our Bay.

This One Got Away

"My husband will never believe me," wailed Mrs. Frank Haman of 312 Julia St., when she found her visitors had motored back to New Orleans taking along with them the "enormous" softshell crab she caught Sunday before we got there to snap its picture for proof positive. She had directed them to help themselves to all the hard shell ones in her locker but surmises they got confused over the size of her softshell prize and hauled that along too. Anyway, Mrs. Haman isn't telling where she landed her prize other than it was somewhere in Cedar Point.

Rain Hampered Playoffs Now Slated Friday

Playoffs in the men's softball league, after two postponements because of rain and wet grounds, are scheduled to get underway Friday night.

Topani, undefeated during regular season play, meets third place Reflets in one game of the men's doubleheader, while the winner of last night's Kinn Youth team - Knights of Columbus will determine fourth place, and second-place Southernosity in the other.

Both will be best two-out-of-three series with the two winners to meet three-out-of-five for the championship.

Donald Caldwell, manager of the league's all-star team, picked this week, announced that the team would play at least one game against out-of-town competition, and that no games would be scheduled.

Tigers Ready Defense Of Gulf Coast Grid Title

The Bay High Tigers will begin practice Tuesday toward defense of the Gulf Coast Conference crown they had won the past two years.

The Tigers' 1961 schedule includes games with each of the other seven members of the conference and contests with Pearl River Central and Poplarville, both of the DeSoto Conference. The season opens Sept. 15 with the Tigers meeting their traditional rival, Pass Christian, in Pass Christian.

The first scheduled home game is against North Central Sept. 28.

Nine games will be played, with the possibility of a tenth being added as there is one open date on the schedule. The homecoming date has not been announced.

Lizana Downs
Sacred Heart in
Dedeaux Play

Lizana captured first place in the Dedeaux softball tournament last Sunday in Dedeaux defeating Sacred Heart Church of Dedeaux 4-3 in the finals. It was an all-day affair with ten teams participating.

Kinn Youth Center played the Knights of Columbus last night in Bay Softball League action, the winner earning the right to move into the playoffs in that league. Kinn already has a playoff berth sewed up in the Pass Christian Night Softball League. They currently run third in the league behind V and M and Ringers Grocery, with only two or three rained-out games to be played.

Hamilton 2nd
In Sears Race
At St. Pete

Buddy Culbertson of Miami, Fla., captured first place in the Southeastern Sears Cup semi-finals last weekend at St. Petersburg, Fla. Bob Hamilton, Jr., of Waveland Yacht Club was second.

Culbertson won four of the five races sailed for a total of 14 1/2 points. Runner-up Hamilton totaled 9 points. The local skipper and his crew, Chuck Breath and Walter Chamberlain, scored one first, two seconds, and two thirds.

Culbertson now advances to the Sears National Championship finals in St. Petersburg Aug. 28.

Hamilton won the local eliminations, the Gulf Coast Yachting Assn. Western district eliminations, and the overall GYA championships in Biloxi. The Sears championships are for yachtsmen under 18 years of age.

Necaise Serves
At Chase Field

Serving at Chase Field Naval Auxiliary Air Station, Beeville, Tex., is James D. Necaise, airman apprentice, USN, son of Mr. and Mrs. Forest J. Necaise of Rte. 2, Box 363-D, Bay St. Louis.

Before entering the Navy in March 1961, Necaise attended Bay High School and was employed by L. P. Davis Construction Co. at Chalmette, La.

Bay High won the Gulf Coast crown in 1959, the first year of the conference's organization, when after finishing second in regular season play, they took the conference playoff from Long Beach 20-19. Last year they successfully defended their championship, going through the regular season undefeated against conference foes, and downing Long Beach 7-0 in the playoffs.

Lance Lumpkin returns as head grid coach of the Tigers this season, and will be faced with the problem of having but two starters back from the 1960 team.

St. Martin of Biloxi is a new member to the Gulf Coast Conference this year, joining the seven charter members from two years ago. Bay High played St. Martin last season as a non-conference game, as did several other conference members.

The complete Bay High schedule:

Sept. 15, Pass Christian, there; Sept. 22, Pearl River Central at Carriere (non-con-

ference); Sept. 28, Hancock North Central, here; Oct. 6, Harrison Central, here; Oct. 13, Long Beach, there; Oct. 19, Poplarville, here (non-conference); Oct. 27, Perkinston, here; Nov. 3, Open; Nov. 10, Ocean Springs, there; and Nov. 17, St. Martin, her.

Lee Ferrell and Mrs. Elsie Ladner won prizes of \$10 Monday night during Moonlight Bowl at Bay Bowling Center.

Ferrell scored the highest three game series of the night in the men's division with a 573 total. Mrs. Ladner totaled 448, good enough for first place in the women's division.

It was decided that because of the large turnout and much enthusiasm over the idea, it would be repeated this Monday night, beginning at 6 p.m., with prizes once again to be offered to the top participants.

Rock Gridders Open Practice on Aug. 23

St. Stanislaus's Rockachows open their 1961 football season Sept. 22 against St. Francis of Peasacola.

This year's schedule is formidable but shouldn't be as tough as last season when the Rocks played the eventual state champs of Alabama, Florida, and Louisiana.

The Rocks sport a nine-game schedule that sees several new teams added from last year, and many familiar names missing, including Jesuit, MacGill of Mo-

bile, and Escambia High of Pensacola.

This year's schedule is formidable but shouldn't be as tough as last season when the Rocks played the eventual state champs of Alabama, Florida, and Louisiana.

Three of the Rocks' home games will be played on Friday nights, with one each on Saturday and Sunday, Oct. 28 will be homecoming and the Rocks play St. John's on that date.

Practice will begin Aug. 23 for the coming campaign. Reuben Ruiz again will be the head coach of the Rocks, but two new men will serve as his assistants, A. J. (Buddy) Pitalo, and Billy Rhodes.

The complete schedules:

Sept. 22-St. Francis (Peasacola) - here; Sept. 29 - Picayune, here; Oct. 6 - Catholic High at Baton Rouge; Oct. 13 - Notre Dame at Biloxi; Oct. 20 - Harrison Central - here; Oct. 28, St. John's (homecoming); Nov. 5 - Leon Godchaux High at Reserve, La.; Nov. 10 - Pearl River Central at Carriere, and Nov. 19 - Hahnville High - here.

**VOTE FOR THE
BAWI BOND ISSUE**

Saturday, August 12, the voters of Bay St. Louis will ballot on the proposed BAWI plant for the Porcelain Enamelling Manufacturing Division of the Industrial Electric Company.

The objective of the proposal is to bring to our city a good, clean, well established industry which will, in the beginning, create a hundred new jobs and a stable, year-round payroll which will certainly strengthen the economy of our city and county.

This is our people's first opportunity to vote on a BAWI project; however, communities all over our State have had very successful experience since the law creating the BAWI program was passed and every indication points toward Mr. Brignac's operation being of tremendous benefit to our city.

The Hancock Bank feels that establishment of this plant can lead to additional industry locating here and an overwhelming vote FOR the issue will clearly demonstrate to industry that they are wanted and would be welcome in our city and thus we heartily endorse it.

Here is a project that all Bay St. Louis can conscientiously approve and we sincerely hope that each and every voter will turn out and vote FOR the bond issue Saturday.
